PROFESSIONAL SUMMARY

Computer Science graduate with experience in business operations, client interaction, and data-driven problem solving through a self-founded startup. Strong analytical, communication, and customer service skills with a passion for understanding business needs and delivering effective solutions.

TECHNICAL SKILLS

• Python	• SQL	• PostgreSQL/MySQL	• Statistical Analysis
• Pandas & NumPy	• Power BI/ Tableau	• Firebase	• EDA & KPI Analysis
• Git/GitHub	• Excel	• Data Visualization	• Data Reporting
• BRD/SRS/PRD	• SDLC	• Agile	• NoSQL
• Jira	• Communication	• Payment Integrations	• Scrum

WORK EXPERIENCE

Founder | DenQr Oct 2025 -Jan 2026

Self-Founded Venture | 3 Months

- Founded and managed a startup focused on providing digital food ordering solutions for hotels and restaurants.
- Worked on identifying customer requirements and developing ordering system concepts.
- Conducted market research and approached hotels and restaurants for business opportunities.
- Managed client communication, product demonstrations, and business development activities.
- Gained practical experience in entrepreneurship, sales, customer relationship management, and operations.

PROJECTS

Online Food Ordering System Oct 2025 – Nov 2025

- Analysed order and payment data to identify customer behaviour, peak ordering hours, and revenue trends, helping improve operational decision-making.
- Computed key metrics such as daily orders, Average Order Value (AOV), and payment success rates using Pandas aggregations and NumPy calculations.
- Performed advanced SQL queries using joins and window functions to extract actionable insights from transactional data.
- Conducted EDA to identify top-selling menu items, category-wise demand trends, and restaurant-wise peak hours.
- Developed Power BI and Excel dashboards that improved visibility into restaurant performance and supported faster business analysis.

Mobile Sales Analysis June 2025 – July 2025

- Cleaned and pre-processed raw data by handling missing values, correcting data types, and removing duplicates, improving data accuracy.
- Built an interactive Power BI dashboard with dynamic slicers to analyse sales trends across brands, cities, models, and payment methods.
- Identified monthly sales patterns and payment-method contributions, supporting data-driven insights into customer purchasing behaviour.

EDUCATION

Bachelor of Technology (B. Tech) – Computer Science Engineering RGPV University Bhopal
CGPA: 7.76 / 10 Aug 2022 – May 2026

Senior Secondary (12th – PCM) MP Board, Bhopal
Percentage: 77.6% May 2021 – May 2022

ACHIVEMENTS

- Founded a QR-based food ordering startup and worked with multiple restaurant owners to provide digital menu, ordering, and payment solutions.
- Successfully managed end-to-end business operations, client onboarding, and product demonstrations for 3 months.

CERTIFICATION

- Certification in Cisco **Data Analytics & Python** Essential Program.
